Micro Radius w/ Dual S4 Ports

$71.89

The Micro Radius S4 Keyboard Platform combines all the standard Micro Radius features with the System 4 Port options. The System 4 option allow users to customize their workstation and create a unique, universal platform with multiple accessories. These accessories can be plugged into each of the four corners of the platform and placed into different positions, accomodating a mouse, writing, documents, calculators, and peripherals. Add, remove and rearrange on-the-fly - no tools required!

The Micro Radius S4 Keyboard Platform also features a standard 20 inch wide, gel wrist support and non-skid pads to prevent the keyboard from slipping and moving around. It is optimized for workstations that have a radiused corner. This keyboard tray when combined with any of the optional accessories provides a truely universal keyboard platform with virtually unlimited options and uses.

The Micro Radius S4 Keyboard Platform can also be customized to use our System 2 and/or System 6 port options. Each of the port options 2, 4, and 6, offer the respective number of ports on the underside of the platform.

This board includes two (2) open S4 Ports, click "Custom System" to add S4 accessories.
