Task 2

Figure-Gel FA

\$24.69

The Task 2 FigureGel FA is our ultra-comfortable forearm supports. These supports are 100% gel, have a non-skid base, and feature extra thickness for added comfort! These supports are intended to help guide the placement of the forearms. The added height more effectively maintains the wrist in a neutral position.

The FigureGel FA Supports have a soft lycra covering. This covering is easy to clean and disinfect using standard household cleaners.
